

# OER Revisions and Ancillary Materials Creation Mini-Grant Application

Affordable Learning Georgia aims to support the sustainability of previous Textbook Transformation Grants implementations through revisions of created open educational resources or the creation of new ancillary materials for existing OER. Individuals or teams who would like to apply for an OER Revisions or Ancillary Materials Creation. Mini-grant participants do not need to be the original creators of the resource(s). While we welcome original authors to revise their original materials, the nature of open licenses allows for the revision and remixing of OER materials by anyone as long as the terms of the license are adhered to.

The final deliverable for this category is the revised or newly-created materials as proposed in the application, which will be hosted through GALILEO Open Learning Materials. All revised or newly-created materials will be made available to the public under a Creative Commons Attribution License (CC-BY), unless the original materials were under a more restrictive license such as the inclusion of SA (Share-Alike) or NC (Non-Commercial).

For the purposes of this grant, we define revision as the major improvement of a resource through updates for accuracy, accessibility, clarity, design, and formatting. We define ancillary materials as any materials created to substantially support the instruction of a course using an existing open educational resource(s).

## Applicant Name \*

Natalie Stickney

---

## Applicant Position \*

Associate Professor, Kinesiology and Health

---

## Applicant Institution \*

Georgia State University

---

## Applicant Email Address \*

Please use your institutional email address.

nstickney@gsu.edu

---

## Other Team Members

Individuals can apply for mini-grants; a team is not required. If you do want to add team members to your grant, please provide the names and email addresses here.

Donya Little; dlittle7@gsu.edu

---

## Type of Project \*

- Revision of pre-existing OER
- Creation of ancillaries for pre-existing OER
- Other: \_\_\_\_\_

## Final Semester of the Project \*

This is the semester in which the materials created/revised will be completed.

- Fall 2019
- Spring 2020

## Proposed Grant Funding Amount: \*

This is the total (in a dollar amount) of funding you are requesting for the mini-grant. There is a maximum of \$4800, with a maximum of \$2000 per team member and \$800 for project expenses.

\$4,800

---

## Currently-Existing Resource(s) to be Revised / Ancillaries Created \*

Please provide a title and web address (URL) to each of the currently-existing resources that you are either revising or creating new ancillary materials for below.

The American Heart Association's BLS/CPR Manual and the Heartsaver First Aid Student Manual

---

## Project Description \*

In at least one paragraph, describe your project's goals and deliverables.

The department of Kinesiology and Health at Georgia State Perimeter College recently adopted two low-cost publications from the American Heart Association for students enrolled in KH 2006, BLS/CPR Manual and the Heartsaver First Aid Student Manual. The cost of these publications are \$25.75 and replaces the National Safety Council textbook (\$122.00), saving students each student \$96.25.

This course is required for Kinesiology and Health majors. Additionally, pre-nursing students and dental hygiene students take the course to obtain CPR/First Aid certification. Enrollment averages 500 students per year. In addition, CPR/First Aid courses are offered at other USG institutions, so we believe that the ancillary content would benefit many other students and faculty outside of Georgia State University-Perimeter College.

Although the American Heart Association Heartsaver First Aid Manual covers the course learning objectives, it is significantly lacking ancillary teaching and learning materials, particularly in the first aid modules currently taught. The proposed ancillary content will provide students greater academic rigor and provide faculty with tools to enhance student learning and engagement.

The proposed project will serve as an educational supplement to the current American Heart Association publications. Ancillary additions will include the following:

1. PowerPoint slides for each chapter- elaborate on chapters and content such as embedded video/links within the slides.
  2. End of chapter quizzes- These can be utilized as study tools for students or assigned by various faculty as homework.
  3. Instructional videos- This will include video demonstrations of techniques and skills that students will replicate in lab activities.
  4. Step-by-step lab instructions including procedures that are not included in the current publication.
-

## Timeline and Personnel \*

Provide a project timeline with milestones below, keeping in mind your selected Final Semester above. Provide a short description of the roles any additional team members will take on during the activities in your timeline.

Spring 2019:

1. Survey faculty for input on faculty resources to include with new text.
2. Create chapter PowerPoints to coincide with each chapter and section.
3. Create video tutorials for labs.

Summer 2019:

Develop end of chapter quizzes, activities, and lab instructions.

Fall 2019:

Post all ancillary content on OER GALILEO site.

---

## Budget \*

Please enter your project's budget below. Include personnel and projected expenses. The maximum amounts for the award are as follows: \$4,800 maximum award, \$2,000 maximum per team member, \$800 maximum for overall project expenses. Unlike standard-scale and large-scale transformations, the maximum of \$800 is not a required element of the budget, but rather meant primarily for the purchase of specific tools and software which would help with improving resources.

Personnel:

Principal Investigator. Natalie Stickney will receive extra compensation in the amount of \$1,503.50 plus 33% fringe benefits in the amount of \$496.16 for a total of \$2,000.

Co-Principal Investigator. Dr. Donya Little will receive extra compensation in the amount of \$1,503.50 plus 33% fringe benefits in the amount of \$496.16 for a total of \$2,000.

TOTAL PROJECT BUDGET = \$2,000

Travel:

Travel for each team member to either attend the October 29, 2018 Kickoff Meeting or to attend a regional conference to disseminate results of the project at \$400 each x 2 members = \$800.

TOTAL REQUEST = \$4,800

---
