Course Number(s) and Title(s)	Math 1070: Elementary Statistics
Final Semester of the Project	Spring 2020
Proposed Grant Funding Amount:	$2,000 personnel, $800 project expenses
Currently-Existing Resource(s) to be Revised / Ancillaries Created	Introductory Statistics https://saylordotorg.github.io/text_introductory-statistics/index.html
Project Description	The course in consideration for this project is Elementary Statistics which serves as one of the top 50 USG lower division courses and a course most of our students at the college take during their first year. The transformation will improve student success in this course by providing easy and free access to class materials. The goal of this project is to adapt and revise existing OER statistics textbook. It is our belief that the currently existing materials can be modified for use in the classroom with the possibility of some modifications and additions to the existing content. The deliverable for this project is OER materials that hosted through GALILEO Open Learning Materials that match the CCO and Teaching guide provided by the College for Math 1070: Elementary Statistics.
Timeline and Personnel	May 2019 - Identify topics/match Course content with GSU Course CCO May 2019 - Modification of existing OER materials Chapter 1 - 3 June 2019 - Modification of existing OER materials Chapters 4 – 7 July 2019- Modification of existing OER materials Chapters 8 - 11 July/August 2019 - Prepare final deliverable the revised or newly-created materials as proposed in the application to be hosted through GALILEO Open Learning Materials.
Budget	$2,000 personnel, $800 project expenses

Creative Commons Terms	I understand that any new materials or revisions created with ALG funding will, by default, be made available to the public under a Creative Commons Attribution License (CC-BY), with exceptions for modifications of pre-existing resources with a more restrictive license.
