**Forwarded Communication from SmarterServices to GeorgiaVIEW:**

As your team is working through the steps to create a contingency plan in preparing to move students online, we want to offer our help.

Hi Wendy,

We know that COVID-19 (the Coronavirus) is having a huge impact on schools and as a trusted partner in higher ed tech for 18 years, we are reaching out to see how we can best assist you. Perhaps you've read the information released by WCET, QM, UPCEA, and OLC. They continue to be a great resource for how COVID-19 is impacting higher education. As your team is working through the steps to create a contingency plan in preparing to move students online, we want to offer our help.

**We are working with our current clients to address concerns and evolving needs by facilitating large scale proctoring deployments including automated proctoring, distributed face-to-face proctoring, and managing written exams that cannot be moved online.** We are happy to help you in any way we can.

Let Us Help

Below are a few resources we've compiled to keep you informed about how COVID-19 is impacting institutions of higher learning including an at-home risk assessment app:

- Education Department Expands Options for Online Learning in Response to the Coronavirus
- Interim Guidance for Administrators of US Institutions of Higher Education
- State of Emergency School List
- Coronavirus App to Provide At-Home Risk Assessment
- Webinar: How to Prepare Yourself to Make the Shift to Online Learning
- Coronavirus Response from OLC, QM, UPCEA, and WCET

For more resources about COVID-19, information about how we can help your school, or to contact us with your questions, please visit our Coronavirus Support page here.
